PROJECTS

E-commerce Website

A modern e-commerce platform built with React featuring product listing, shopping cart functionality, and responsive design. Includes component-based architecture and state management.

Portfolio

My personal portfolio website showcasing my skills, projects, and contact information. Designed with a modern, clean aesthetic and fully responsive layout.

Movie App

A dynamic Movie Explorer web application built with React, featuring movie listings fetched from the TMDB API. Users can browse popular, top-rated, and upcoming movies and search for any movie instantly. The interface is fully responsive with a clean and modern UI.
